

# GENERAL PURPOSE SOLVENT INK

 **SOLVENT BASED / NON-POROUS**

 **QUICK - DRY**

 **SUPER FAST PRINTING**

 **600DPI RESOLUTION**

## EZINK

## KAPPA

EZ INK Kappa cartridge is non-porous ink formulated to print on smooth & glossy surfaces such as bottle, plastic, metal, gloss coated surface and many more. EZ INK Kappa high scratch & smudge resistance, even on smooth surface. It has waterproof and oil resistance properties increase the durability drastically.

# EZ INK

# KAPPA

## Excellent Printing on Non-Porous Surfaces

EZ INK Kappa is highly capable to print on a wide range of non-porous materials and highly waterproof, thanks to our special ink formulation. The printing will be long-lasting and durable to withstand any environment.

## Quick-dry Ink Formulation

EZ INK Kappa has a quick-dry ink formulation which makes the printing stick to the substrates almost instantly.

## High Speed, High Resolution Printing

EZ INK Kappa capable of printing high resolution 600Dpi images even at high speed which results in dark and highly precise printing.

## Capable of 2D Barcode & QR code Printing

EZ INK Kappa cartridge is designed with dual nozzle head which allows the printing to be solid and barcode friendly for any tracking and handling requirements.

## Specifications

Cartridge	HP 45Si Genuine Cartridge
Ink type	Solvent-Based
Ink volume	42ml
Print Height	12.7mm
Print Distance	2-5mm
De-cap Time	1 hour
Storage life	9 months
Storage condition	15°C ~ 35°C (Room Temp)

## Handling Instruction

1. Always keep the cover on the cartridge when not in use.
2. Clean the head first after opening the cover.
3. Avoid inserting / removing the cartridge during "Printing" mode.
4. Insert the cartridge carefully into the printer printhead assembly.

## Compatible Substrates

1. Craft Paper
2. Carton Box
3. Wood
4. Coated surface
5. Plastic ( PP, PET..)
6. Bottle
7. Metal, Aluminum
8. PVC
9. Film
10. Glass
